PROFESSIONAL SUMMARY

Software developer with 5 years of experience delivering solutions across e-commerce, healthcare, fintech and game development. Proven leader of teams up to 8 engineers, managing the full SDLC from conception through deployment. Skilled in full-stack development, RESTful APIs, mobile apps and DevOps. Currently driving technological advancement and digital strategy at AEDS, an African economic think tank.

WORK EXPERIENCE

Head of ICT

Africa Economic Development Strategies (AEDS) | Harare, Zimbabwe
June 2026 to Present

- Develop and implement the AEDS ICT Strategy in alignment with the organisation's 2030 vision.
- Oversee all ICT infrastructure, systems and platforms used across AEDS.
- Manage and mentor the ICT team including developers and interns.
- Define, implement and enforce ICT policies and standards across the organisation.
- Lead procurement of technology solutions, software and services.
- Manage the ICT budget and report to executive management on ICT performance.
- Ensure the security and continuity of all AEDS digital assets and data.
- Identify and recommend technology innovations that enhance AEDS research and advisory capabilities.

Technology and Digital Strategy Associate

Africa Economic Development Strategies (AEDS) | Harare, Zimbabwe
March 2026 to May 2026

- Led website management ensuring content accuracy, UX quality and brand alignment with the AEDS mission.
- Designed and implemented internal systems including databases, knowledge management platforms and workflow tools.
- Spearheaded evaluation and adoption of technologies to advance research and communication capabilities.
- Monitored digital analytics and produced reports on web traffic, content engagement and outreach performance.
- Oversaw digital security, user access management and data integrity across all platforms.

Senior Website, Mobile and System Developer

Zimpapers Group | Harare, Zimbabwe
December 2022 to January 2026

- Led a team of 8 developers, consistently delivering 10 or more high-quality software projects on schedule.
- Unified all Zimpapers websites into a single web application, improving advertising revenue metrics.
- Developed and maintained websites for The Herald, Star FM, Capitalk FM and Sunday Mail, reaching over 1 million users.
- Designed and launched 3 mobile applications with integrated user feedback systems.
- Implemented RESTful APIs for 12 internal services, improving cross-platform performance.
- Built in-house HR and procurement systems that significantly improved workflow efficiency.
- Founded the Zimpapers Innovation Team, leading digital initiatives across 4 cities and 12 publications.
